

## Margie Delahunty Spencer

### *Meg's Pyjamas*

In Early 2020, Margie's Daughter, Meg arrived home from UK and was quickly diagnosed with Covid -19. Placed into isolation in a unit above the garage, Meg and Margie could only see each other through glass and communicate via text messages. During this time Meg became Margie's muse and her daily garden exercise routine, in her Pyjamas, became the inspiration for this body of paintings.
